Work Experience

Full Stack Developer - Argentina

July 2023 - September 2023

I contributed to the successful development of Zucarellita Nails School's website project, marking a significant milestone for the company by launching its first educational courses.

Responsibilities:

- As a Full Stack Developer, I was involved in the creation, development, and maintenance of websites, adopting a comprehensive approach from frontend to backend. My responsibilities included designing, implementing, and optimizing site functionality, as well as troubleshooting and continuously improving performance.
- 1. Designed and developed the frontend using technologies such as HTML, CSS, and JavaScript to create attractive and functional user interfaces.
- 2. Implemented the backend using frameworks like Node.js and Express.js, along with databases like MongoDB, to manage server logic and store data.
- 3. Integrated third-party services and APIs to add additional features to the site.
- 4. Currently focused on optimizing website performance, including improvements in loading speed and mobile compatibility.

Tech Stack Used:

- Frontend: HTML, CSS, JavaScript, React.js
- Backend: Node.js, Express.js
- Databases: MongoDB
- Version Control Tools: Git, GitHub
- Deployment: Heroku

AUMLA - Data Analysis -Sweden

June 30, 2021 – September 28, 2021

- At AUMLA, I focused on data analysis, specifically utilizing the Google Analytics tool to examine user behavior. My responsibilities included studying user interests based on various demographics, including age, gender, occupation, and location.
- **This role allowed me to gain valuable insights into user behavior patterns, which were instrumental in informing decision-making processes and optimizing strategies to enhance user engagement and satisfaction.**
